

let's start your podcast...

TOGETHER

Starting a Podcast from scratch can be daunting so, why not leave the stress to us and work on it together.

We will help you go from concept to a live episode ready to share with the world. We take a hands-on approach and walk you through each step.

This package is all-inclusive - so no hidden costs to worry about.

Included in your set-up package we will:

- Help you design a nice format and flow for your episodes including standing introduction, selecting music and creating the general format for how your Podcast will sound.
- Produce Episode One with Level 4* inclusions.
- Connect Podcast Host to Apple, Spotify and other Podcast directories.
- Link your podcast to your website and create a website header image.
- Submit your first episode to all the right places ready for launch.

COST: \$499

SEE NEXT PAGE FOR WEEKLY PODCAST EPISODE LEVELS

START WITH SOME EXTRA PAZAZZ

START YOUR PODCAST WITH AN EPISODE ZERO!

We will create an Episode Zero, taking snippets of upcoming interviews or a solo interview outlining your goals.

Podcast directories require manual submission for your first episode, meaning you have no control over when your first episode is released. Submitting an episode Zero allows you to schedule Episode One for launch.

COST: \$149

PODCAST COVER ART

Your Cover Art is what everyone will see when listening to your podcast.

We work with you to create a Cover artwork that will pop and reflect your brand.

COST: \$199

Excludes business logo creation
